Foreword

BY ANDREW WILSON, JR.
President Intercollegiate Swimming Association.

In undertaking the publication of a swimming guide, the Intercollegiate Swimming Association is merely keeping pace with the phenomenal development and remarkable popularity of water sports in the American college and preparatory school world.

We have no desire to sever relations with the National Collegiate Association, the Young Men's Christian Association, or the American Red Cross, with which organizations we have previously united in publishing a handbook for swimmers. We assure them of our cordial good feeling and continued co-operation, but we believe that Intercollegiate and Interscholastic aquatics should stand alone.

The aims and aspirations of Intercollegiate and Interscholastic aquatics are essentially the same. The future of University swimming rests largely with the preparatory schools. These two have many problems peculiar to their own spheres. They need, we believe, a complete, accurate reference book which will contain their own rules, regulations and records and will be devoted primarily to their unique problems. We hope it will be of service in standardizing eligibility requirements, in teaching competitors the rules, in recording the list of champions with their records, in publishing the list of officials, and in developing a logical system for competition especially among the teams of preparatory schools, which to date have no league similar to the Intercollegiate Swimming Association. It deserves the support of every lover of water sports.

SWIMMING RULES

Copyright, 1920, by the Intercollegiate Swimming Association and
the American Sports Publishing Company, New York.

RULE I. OFFICIAL PROGRAMME AND ORDER OF EVENTS FOR DUAL MEETS.

Programme and
order of events
for dual meets.

The official programme and the order of events for dual meets shall be as follows:

1. 50 Yards Swim.
2. Fancy Diving.
3. 220 Yards Swim.
4. Plunge for Distance.
5. 100 Yards Swim.
6. First Half of Water Polo.
7. Relay Race (4 men, each to swim at least 50 yards).
8. Second Half of Water Polo.

RULE II. OFFICIALS.

Duties of officials.

SECTION 1. There shall be one referee, three judges, three timers, one starter, one clerk of course, and one announcer.

Duties of referee.

SEC. 2. The referee shall have full jurisdiction over the meet and he shall see that all the rules are enforced.

He shall assign to each judge his particular duty as to deciding the winner, second, third, etc., as the case may require.

He shall act as chief judge and assist in picking the winner of first place in every race.

He shall appoint a chief timer.

He shall appoint judges to touch off the relay contestants. This shall be done by each respective judge by touching, on the ankle, each successive relay man at the instant his predecessor finishes.

The referee shall instruct all other officials regarding their duties as covered by the rules.

SEC. 3. The judges shall determine the order in which the contestants finish.

RULE II.

Duties of judges

SEC. 4. The chief timer shall instruct each timer to start his watch instantly on the flash of the starter's pistol and to stop his watch simultaneously with the finish of the winner of first place.

Duties of timers.

The chief timer shall read all watches and after the decision has been reached, announce the official time of each race.

Before the meet the chief timer shall examine the watches to be used to determine their accuracy.

Where two or more watches register the same time, that time shall be regarded as official time. If each of the three watches registers a different time, the intermediate watch shall be regarded as official time.

If for any reason only two watches record the time of any event and they fail to agree, the slower time of the two shall be regarded as official.

No record shall be recognized as official unless the watches of each of the three timers shall have equaled or surpassed the time to be accepted and shall have been examined by the chief timer.

SEC. 5. The clerk of course shall be responsible for placing the contestants on the starting mark at the proper time for each event. If necessary he shall have them draw by lot for starting positions, after which they shall be turned over to the starter. The clerk of course shall also act as inspector at turns and shall report to the referee any infraction of the rule on turning.

Duties of clerk of course.

SEC. 6. The starter shall have entire control of the competitors after they have been assigned to their proper positions by the clerk of course.

Duties of starter.

After receiving a signal from the referee that the timers and judges are ready he shall start the race according to Rule V.

RULE II. The starter shall see that the contestants leave the mark as near together as possible. No contestant shall be allowed to have his body (action of arms disregarded) moving forward until after the starter's pistol has been fired.

In case the pistol is not purposely discharged or in case any competitor shall have obtained an unfair advantage at the start, the competitors shall all be called back at once by pistol shot.

The starter must have at least three good cartridges in his pistol before starting race. A snap cap or accidental shot shall be no start.

RULE III. CONTESTANTS.

Number of contestants in dual meets. SECTION 1. In dual meets the number of contestants for each event shall be limited to two for each team with the exception of the relay race, when four men shall comprise a team.

SEC. 2. No contestant shall compete in more than three different events in a dual swimming meet, participation in water polo excepted.

RULE IV. SCORING OF POINTS.

Scoring points in dual meets. SECTION 1. In all dual meets places in events shall be valued as follows:

a. In the relay race:

First place	8 points
Second place	0 points

b. In all other events:

First place	5 points
Second place	3 points
Third place	1 point

SEC. 2. The team having the greatest number of points shall be declared the winner of the swimming meet.

SEC. 3. The home team shall install a score-board of suitable size and in such location that the spectators may follow the progress of the meet. **RULE IV.**

RULE V. OFFICIAL START.

SECTION 1. Each competitor shall stand with both feet on the starting line—i.e., the curb of the pool—and when the signal is given shall plunge. Stepping back either before or after the signal shall not be allowed. *Starting position.*

SEC. 2. The official starting signal for all races shall be as follows: *Starting signal.*

1. "Get on your marks."
2. "Get set."
3. Pistol shot.

SEC. 3. Three false starts by any contestant shall disqualify him. No substitute shall be allowed for such disqualified competitor. *False start.*

RULE VI. FOULS.

SECTION 1. Each competitor shall keep a straight course parallel with the sides of the pool from the starting station to the opposite point in the finish line. Any contestant who when out of his course shall touch another competitor is liable to disqualification from the event, subject to the discretion of the referee. The referee may order any race swum over if he thinks sufficient unfairness prevailed. *Competing course.*

SEC. 2. A competitor in turning must, under penalty of disqualification, touch the end of the pool with one or both hands before pushing off. *Turning.*

SEC. 3. In all swimming races each competitor shall have finished the race when any part of his person touches the finish mark. In the relay race, each competitor shall touch the finish mark before *Finish of race.*

RULE VI. his successor shall be touched off by the judge of his course.

Dual meet lanes.

SEC. 4. It is recommended that a black line at least six inches wide be painted lengthwise down the center of the pool, and in all dual meets the two contestants from each team shall swim on the same side of the dividing line. If a swimmer crosses this division line so as to interfere with another contestant he shall be disqualified.

RULE VII. PLUNGE FOR DISTANCE.

Definition of plunge.

SECTION 1. A plunge shall be a standing dive, made head first from a firm take-off, not more than eighteen inches above the water line, which shall be free from spring. The body to be kept motionless, face downward, during the plunge.

Duration of plunge.

SEC. 2. The plunge shall terminate at the expiration of one minute if the competitor has not already raised his face above the surface of the water. The duration of a plunge shall be reckoned from the time the competitor's feet leave the take-off. If a contestant touches the side of the pool he shall be compelled to stop and his distance taken.

Measuring plunge.

SEC. 3. The distance of a plunge shall be measured along a straight line at right angles to the diving base, to a line parallel to the diving base, over the farthest point reached by any portion of the competitor's body while fulfilling the conditions stipulated in Sec. 2.

NOTE—In case more than one competitor plunges the full length of the pool, the winner shall be the one with the fastest time record.

Number of plunges.

SEC. 4. Each competitor shall be allowed two plunges and the farthest plunge shall win.

SEC. 5. The chief timer shall notify each contestant at the expiration of sixty seconds by the report of a pistol.

SEC. 6. The plunger shall be notified at the expiration of thirty seconds as to the distance covered and shall be informed as to his direction by the referee.

RULE VII.

Directing plunger

RULE VIII. FANCY DIVING.

SECTION 1. Dives shall be classified as "required" and "voluntary." The required dives are as follows: Running front dive, plain or swallow; back dive; running front jack knife; and back jack knife. In addition to these dives each competitor shall perform four other dives which must be selected from the following table:

Dive.	Standing Points.	Running Points.	Official diving table.
1. Forward somersault	1.5	1.5	
2. Forward 1 1-2 somersault.....	1.9	1.8	
3. Forward somersault with 1-2 twist	1.7	1.7	
4. Forward 1 1-2 somersault with 1-2 twist	2.2	2.2	
5. Forward double somersault.....		2.2	
6. Backward somersault	1.5		
7. Backward 1 1-2 somersault.....	2.2		
8. Backward double somersault....	2.0		
9. Flying Dutchman (forward spring back dive)	1.9	2.0	
10. Flying Dutchman somersault....	1.7	1.8	
11. Flying Dutchman 1-2 twist.....	1.7	1.7	
12. Twisting back 1 1-2 somersault..	2.1		
13. Forward spring half twist back dive	1.5	1.6	
14. Forward spring full twist with forward dive	1.8	1.8	
15. Backward spring and forward dive 1-2 twist.....	1.4		
16. Backward spring and backward dive full twist.....	1.9		

RULE VIII.

17. Backward spring with forward somersault	1.9	
18. Backward spring with 1 1-2 forward somersault	2.0	
19. Forward jack-knife 1-2 twist....	1.8	1.9
20. Forward jack-knife full twist....	2.2	2.2
21. Backward jack-knife 1-2 twist...	1.9	
22. Handstand dive	1.2	
23. Handspring dive with somersault.	1.6	1.6

Official diving board.

SEC. 3. The official diving board shall have a length of not less than 12 feet nor more than 13 feet, shall be at least 20 inches wide and shall project not less than 2 feet beyond the edge of the pool. The height of the board from the surface of the water shall be not less than 2 feet 6 inches nor more than 4 feet.

Construction of board.

NOTE—Experience has proved the diving board of the following construction most desirable: Six 2x4-inch strips of straight grain white ash, 12 or 13 feet in length, fastened together by two 2-inch by 4-inch cleats, 3 inches apart, so as to form a groove for the fulcrum at one-third the distance from the free end, and with five 2-inch by 6-inch cleats equally distributed over the remainder of the board. The board should be securely fastened to the floor with bolts at one end, there being no fastening at the fulcrum. Cocoa matting as a covering has been found more satisfactory than rubber.

Depth of water.

SEC. 4. The depth of water in all diving competition shall be at least 7 feet.

Jack-knife limit.

SEC. 5. Contestants when executing any jack-knife dive must enter the water within 6 feet of the end of the diving board. Lines shall be painted on the curbing on each side of the pool, 6 feet from the end of the diving board, to assist the judges in

determining fouls. If a contestant enters the water beyond the 6-foot limit the dive shall be considered of 50 per cent. lower value than he otherwise would have obtained.

SEC. 6. A written list of voluntary dives shall be submitted by each competitor to the judges before the beginning of the competition. Changes in this list shall not be permitted. No competitor shall be permitted to repeat any dive.

SEC. 7. Any diver, to perform a perfect head-foremost dive, must have his hands enter the water first.

RULE IX. METHOD OF SCORING DIVES.

SECTION 1. There shall be not less than three judges, who shall, independently and without consulting each other, award points and, if necessary, half points up to the maximum of 10 for each dive, according to the following scale:

	Points.	Number of fancy diving judges.
Unsuccessful attempt	0	
Poor dive	3	
Fair dive	6	
Good dive	8	
Excellent dive	10	

SEC. 2. In the case of voluntary dives, before adding up his points and placing the competitors, each judge shall multiply the points which he has awarded for each dive by the value given in the list of fancy dives, according to Rule VIII, Sec. 2, and shall add the products thus obtained. The maximum for each required dive shall be 10 points without addition for degree of difficulty.

SEC. 3. When judging voluntary dives, on no account shall the maximum for any particular dive be raised, nor shall the judge take into consideration

RULE VIII.

Competitor's
written list of
dives.

Number of fancy
diving judges.

Scoring
voluntary dives.

Execution of
dives alone
considered.

RULE IX. the difficulty of the dive done, but points shall be awarded for execution alone. An unsuccessful attempt is one in which the competitor has failed to perform the dive nominated.

Determining
winners or
diving.

SEC. 4. At the finish of the contest, each judge shall add up his points and place the competitors, 1, 2, 3, etc., in the order thus established. Should two or more competitors receive equal points from any judge, they shall each be awarded the same placing figures, but the next competitors in order must be placed in the positions which they otherwise would have obtained.

Tie scores in
fancy diving.

SEC. 5. The placing figures of each judge shall be added together, and the competitor whose aggregate is the LOWEST shall be the winner. In the event of a tie for any position, the total points of the three judges shall be added together and such position awarded to the competitor having the HIGHEST number.

Table for Scoring Difficulty of Dives

By Frank J. Sullivan, Coach Princeton University

First column = *Judge's possible estimate* of value of a given dive on basis of points or half points, ten points being given for a perfect dive (See Rule IX., Section 1). Succeeding columns contain *final results* of dives after judge's estimate has been multiplied by the proper factor for difficulty. The various possible factors for difficulty (See Rule VIII., Sec. 2) appear in bold face type at top of each column of *final results*.

SEC. 2. It should be inflated seven-eighths full Inflation. and be free from oil, grease or other objectionable

RULE III. substance so that a good grip may be had on it with one hand, and it shall be inspected by the referee before putting it into play to see that the inflation is as described.

SEC. 3. The home team shall supply an official ball.

RULE IV. PLAYERS AND SUBSTITUTES.

Positions. SECTION 1. The team shall consist of six players in the following positions: Center, Right Forward, Left Forward, Right Back, Left Back and Goalkeeper.

Captains. SEC. 2. The captains must be playing members of their teams. All protests, all demands for cessation of play for any purpose whatsoever, and notices of substitution of players must be made to the referee by the captains.

Substitution of players. SEC. 3. A player may be substituted for another at any time, provided that his side has possession of the ball, or at any time at the discretion of the referee. Before entering the water the new player must report to, and be recognized by, the referee.

Number of substitutes. SEC. 4. Only two men may be substituted in any one game unless it is otherwise agreed by both captains before the start of the game. A player who has been removed during the game for other reasons than disqualification may be returned during the subsequent period.

RULE V. OFFICIALS.

Number of officials. SECTION 1. There shall be the following officials:

- Referee.
- Two Timekeepers.
- Two Goal Umpires.
- One Scorer.

SEC. 2. The referee must be selected and mutually agreed upon by the official representatives of both teams. He shall be supplied with a whistle and pistol for signaling.

RULE V. Selection of referee.

SEC. 3. The umpires shall call attention to any ^{Umpires.} fouls, shall give evidence on the scoring of goals, if called upon, but may not stop the game.

SEC. 4. The timekeepers shall be chosen by the two captains. They shall be supplied with stop-watches and whistles and shall keep time on the game.

SEC. 5. The referee shall have absolute supervision of the game, shall have the power to reverse any decision of an umpire, and shall call fouls when necessary.

SEC. 6. In case of a foul the referee shall indicate the offender and announce the nature of the foul, so that the scorer, offender and spectators can hear him.

Referee announces fouls.

RULE VI. THE GAME.

SECTION 1. The game shall consist of two ^{Length of game.} periods of 8 minutes each, with an intermission of 5 minutes.

SEC. 2. In the case of a tie at the end of the second period, the teams shall rest 5 minutes and then play for another period of 3 minutes, or as many such periods as may be necessary to break the tie.

SEC. 3. A captain, provided his team is in possession of the ball, may call time out without penalty up to 2 minutes for any purpose, but not more than twice in one period. On resumption of play the teams shall line up at their respective ends, with the ball in possession of the goalkeeper of the team that called time out. Time occupied by dis-

Time out.

RULE VI. puts, repairing of suits, replacing of men, lining up for new start, and free throws from fouls shall not be counted as time of play.

Referee stopping game. SEC. 4. When for any reason the referee wishes to call time or stop play during any period, he shall sound the whistle or pistol. This signal shall immediately render the ball dead, and the ball so stopped shall not again be put into play except by the referee, who shall give it to the goalkeeper of the team having it last, both teams being in the water within their own 20-foot line when the play is resumed.

Ball out of bounds. SEC. 5. Time shall be taken out whenever the ball goes out of bounds, time out to begin when the referee's whistle or pistol sounds calling the ball out of bounds, and time in again shall begin when the referee's whistle or pistol sounds calling the ball in play.

Start of game. SEC. 6. The start at the beginning of each period shall be made by both teams lining up at their respective ends of the pool, the visitors being given choice at beginning of first period. The ball shall be placed in the center of the playing area by the referee and held there with a pole fitted with a ring, start for the ball being made only at the sound of the whistle or pistol. In case of a false start, teams shall line up as before. Three consecutive false starts by one of the teams shall constitute a technical foul. Teams shall change ends at half time and at the beginning of each extra period.

RULE VII. DEFINITION OF TERMS.

Ball in play. SECTION 1. The ball shall be considered in play until it either leaves the playing area or the referee signals with whistle or pistol.

Method of making goals. SEC. 2. To score a touch goal the ball must be touched to the goal while in the possession of a

player on the attacking side. To score a thrown goal, the ball must strike the goal board after being thrown by a member of the attacking team from outside the 15-foot line. If the ball is in the air when time is called and a goal is scored, the goal shall count.

SEC. 3. After a touch goal or a thrown goal has been scored, the teams shall line up at their respective ends of the playing area and the ball shall be given to the goalkeeper of the side scored upon. At the signal by whistle of the referee all the men of both teams must enter the water immediately from their respective ends of the pool under penalty of a technical foul, and in 10 seconds the goalkeeper holding the ball must pass or carry it out of his goal zone. When the ball is in a team's own zone a player on that team may retain possession of it not longer than 10 seconds or until the umpire or referee signals by word, at which signal the ball must pass out of that goal zone or be forfeited to the goalkeeper of the opposing team. After a free throw, whether successful or not, the ball shall be given to the goalkeeper of the team fouled against and the ball shall be put in play in the same manner as after a touch or thrown goal.

SEC. 4. If a team causes the ball to go out of the playing area, it shall be given to the goalkeeper of the opposing team within his own 4-foot line; and the players of the team causing the ball to go out shall not be allowed within the 15-foot line until the whistle or pistol is sounded. No player shall leave the water when the ball goes out of bounds.

SEC. 5. The ball shall be kept on or as near the surface of the water as possible and shall not be intentionally carried under the water. If, however, a player with the ball has been forced under by an

RULE VII. opponent, he may carry the ball as far as 8 feet under water. The ball shall not be carried under water a greater distance than this under any circumstances. No goal shall be counted if scored on an under water pass.

Resting. No player shall hold on to the side or end of the pool except for the purpose of resting and shall take no part in the play while resting.

Playing within four-foot line. SEC. 6. No player except three backs of the defending side shall be allowed inside the 4-foot line until the ball is within it. When the ball is within this line no player inside this section will be allowed artificial support other than the bottom of the playing area.

Tackling. SEC. 7. No player shall tackle an opponent unless said opponent has possession of the ball or is within 4 feet of the ball. *Exception*—When ball is within the 4-foot section, tackling may be allowed anywhere within this section. At other times a player in covering an opponent may block him, but he shall not be allowed to lay his hands on him or hold him with his legs.

RULE VIII. FOULS.

SECTION 1. Fouls are divided into three groups: Personal, technical and disqualifying.

Penalty for personal fouls. SEC. 2. The penalty for a personal foul shall be two free throws at an unguarded goal from the 15-foot mark; each throw if successful will count one point. Personal fouls are enumerated as follows:

a. Tackling player who is not within 4 feet of ball.

b. Delaying the game after receiving notification to play by the referee.

c. Kicking intentionally or striking an opponent.

RULE VIII.

d. Holding under water for more than 10 seconds any player who is within 4 feet of the ball.
Exception—A player who has possession of the ball may be held under 10 seconds or as long thereafter as he retains possession of the ball.

e. Unnecessary rough work.

f. Tackling player after goal has been scored or after game has been stopped for any reason by referee.

g. Use of abusive language to players or officials.

h. Player other than captain questioning any decision of officials.

i. Violation of Rule VII, Sec. 7, regarding blocking.

SEC. 3. The penalty for a technical foul shall be a free throw at an unguarded goal from the 15-foot mark, which if successful will count one point. Technical fouls are as follows:

a. Crossing 4-foot line ahead of ball. (If player corrects this mistake at once, provided the mistake has in no way affected the play, no foul shall be called.)

b. Holding on side or end of pool while engaged in scrimmage or while in possession of the ball.

c. Tackling a player by the costume.

d. Substitute failing to report to referee.

e. Swimming more than 8 feet under water with the ball.

f. Three false starts on line-up.

g. Four players inside their own 4-foot line when ball is not in goal section. *Exception*—If the defending side fouls after the ball is within 4-foot line and a goal is scored, the foul shall not count. If, however, the goal is not scored, the foul shall count and a free throw given to the offended side.

h. Failure to enter water according to Rule VII, Sec. 3.

Penalty for
technical fouls.

RULE VIII. *i.* Holding ball under water unless tackled by opponent.

j. Violation of Rule VII, Sec. 6, regarding artificial support.

k. Going under water with the ball before being tackled.

Suspended player. SEC. 4. A player may be suspended for the period or disqualified for the game by the referee for unnecessary roughness or for unbecoming conduct and his team charged with a personal foul. A substitute shall be allowed for a suspended player, but the suspended player may return to the game at the beginning of the subsequent period. When a player is disqualified a substitute may take his place immediately.

SEC. 5. Any player having oil, grease or other objectionable substance on his body or suit shall be disqualified.

Foul by attacking side while scoring goal. SEC. 6. If the attacking side fouls and before the foul is called the goal is scored by them, the loss of the goal shall be the only penalty, and the ball shall be put in play in the center of the pool as at the beginning of the game.

RULE IX. SCORING.

SECTION 1. Goal values:

A touch goal will equal 5 points.

A thrown goal will equal 3 points.

A goal thrown by free throw after foul will equal 1 point.

Winner. SEC. 2. The team scoring the largest number of points shall be declared the winner.

Scoreboard. SEC. 3. It is recommended that the home team provide a scoreboard of such dimensions and so placed as to enable players and spectators to follow the game more easily.

Constitution OF THE **Intercollegiate Swimming Association**

I. NAME.

The name of this Association shall be the INTERCOLLEGIATE SWIMMING ASSOCIATION.

II. OBJECT.

To promote the sport of swimming among the colleges.

III. MEMBERSHIP.

(a) Membership in the Association shall be divided into two classes:

1. Full Membership.
2. Associate Membership.

(b) Any college which is represented by both swimming and water polo teams shall be eligible to full membership.

(c) Any college which is represented by a swimming team only shall be eligible to associate membership.

Associate members are entitled to enter contestants in the Individual Championships.

(d) Any college desirous to join the Association shall send to the President a written application to be submitted to the Executive Committee, stating the class of membership desired.

Unanimous votes of all colleges holding full membership shall be necessary for election.

Upon notification of election the entrance fee and dues for one year shall be paid to the Treasurer of the Association, whereupon such college shall be registered as a member of the Intercollegiate Swimming Association.

(e) Members must keep the Secretary-Treasurer informed of any change of management and of the names and addresses of the manager of the swimming team.

(f) Any college may withdraw from the Association by sending in a resignation signed by the manager.

IV. OFFICERS.

(a) The officers shall consist of a President, a Vice-President, a Secretary-Treasurer, and an Executive Committee.

(b) The President, Vice-President and the Secretary-Treasurer of this Association shall be graduates of different colleges holding full membership.

(c) The terms of the original officers shall be two, one and three years, respectively, and subsequent terms of office shall be for three years each.

(d) The President, Vice-President and the Secretary-Treasurer shall be members ex-officio of the Executive Committee, the remainder of which committee is to consist of one undergraduate representative appointed from each college holding full membership. The term of office for undergraduate members shall continue for one year.

(e) The annual election of officers shall be held immediately prior to the Individual Championships.

V. DUTIES OF OFFICERS.

(a) The President shall preside at each meeting of the Association and enforce all laws and regulations of the Association. He shall appoint all committees, except the Executive Committee, and preside over the Executive Committee.

(b) The Vice-President shall preside at all meetings in the absence of the President, and shall perform all duties of that officer in case of his absence or disability.

(c) The Secretary-Treasurer shall conduct all official correspondence of the Association, issue notices of all meetings to all members of the Association and perform such other duties as may be assigned to him by the Association, and keep a list of meets and records. He shall also keep all accounts and receive all moneys of the Association, and at each annual meeting shall present a written statement of the financial condition of the Association.

(d) The duties of the Executive Committee shall be to consider questions affecting the policy and welfare of the Association, and to present for consideration at the annual meeting such propositions as may seem wise.

VI. COMMITTEES.

The following standing committees shall be appointed each year, at or before the October meeting, by the President:

1. Committee on Rules.
2. Committee on Officials.

VII. MEETINGS OF THE ASSOCIATION.

(a) There shall be two regular meetings of the Association each year, one on the last Sunday in October at a place selected by the Secretary, the other to be held the afternoon of the Individual Championships. The Secretary will issue notices of these meetings to the manager of the swimming team of each college two weeks previous to these dates.

(b) Each college shall send at least one representative, but not more than three.

- (c) Each college holding full membership is entitled to one vote only.
- (d) Order of business shall be:
 1. Roll call.
 2. Old business.
 3. Reports and communications.
 4. New business.
- (e) A special meeting may be called upon not less than one week's notice whenever the officers of the Association shall deem it necessary, or when two colleges holding full membership shall make a written request to the President for such a meeting.
- (f) A majority of the colleges holding full membership in the Association shall constitute a quorum at any meeting of the Association.

VIII. ENTRANCE FEES AND DUES.

Entrance fees shall be \$10.00 for each college entering the Association. Dues shall be \$15.00 for full members and \$10.00 for associate members, payable annually before the fifteenth day of December.

IX. AMENDMENTS.

This constitution may be amended by a majority vote of the members holding full membership.

By-Laws OF THE **Intercollegiate Swimming Association**

I. INTERCOLLEGIATE CHAMPIONSHIPS.

The Association shall each year award separate championships in swimming and in water polo.

Each college holding full membership in the Association must enter a swimming team and a water polo team in every league meet.

The championships in swimming and water polo shall be open only to colleges holding full membership and shall be decided by a series of meets in which each college of the Association shall meet every other college twice, once at home and once abroad, the championship being awarded to the team having the highest percentage standing at the end of the season.

Championship plaques of suitable design shall be awarded by the Intercollegiate Swimming Association to the championship swimming and water polo teams.

II. EVENTS.

The programme and order of events shall be as follows:

1. 50-yard Swim.
2. Fancy Diving.
3. 220-yard Swim.
4. Plunge for distance.
5. 100-yard Swim.
6. First Half of Water Polo.
7. Relay Race (4 men, each to swim at least 50 yards).
8. Second Half of Water Polo.

When a league member holds a meet and no water polo game is played, the order of events shall be: 1, Relay; 2, Fancy Diving; 3, 50 yards; 4, 220 yards; 5, Plunge; 6, 100 yards.

III. SCORING OF POINTS.

In all dual meets points shall be scored as follows: In individual events, 5 for first place, 3 for second place and 1 for third place. In Relay: 8 for winning team and nothing for losing team.

IV. TIME OF MEETS.

The schedule for the coming season must be completed and adopted at the regular October meeting. On or before the 15th of November the managers of teams which are full members shall file with the Secretary of the Association their schedule of the dates for meets between other colleges which are full members.

No date for a dual meet can be changed except by mutual agreement of the colleges concerned.

In the event that no date can be agreed upon, the managers of the respective teams shall confer with the officers of the Association, not less than two weeks before the original date set, who shall thereupon, after due consideration, fix a date for the meet. The college then failing to compete shall forfeit the meet.

In case of tie, the championship shall be decided in a neutral tank, the details to be decided at the meeting prior to the Individual Championships.

V. ELIGIBILITY.

No man who has competed on any team in the Association against any member of this Association in three seasons shall be eligible to compete. No Freshman shall be allowed to represent his college on the university team. This provision shall apply only to teams which are full members of this Association.

VI. EXPENSES.

In all dual league meets the home team shall keep all gate receipts. Each visiting team shall defray its own expenses. All other expenses for holding such meets shall be paid by the home team. This provision shall apply only to meets between full members.

VII. REFEREES AND OFFICIALS.

No graduate or alumnus or any person who is or has been connected with either competing college shall be allowed as a referee or official, except by mutual consent of the competing colleges.

There shall be a Head Referee and a list of referees approved by the Executive Committee. The referee must be selected by the manager of the home team from the list submitted by the Executive Committee unless the opposing managers mutually agree on some man not on the list. If the managers cannot procure a referee according to the above, the Head Referee shall appoint the referee for the meet.

The manager of the home team shall procure the officials for each meet and submit their names to the manager of the visiting team for his approval.

The officials for the Individual Championships shall be appointed by the manager of the team holding the meet. Such appointments must have the approval of the Executive Committee.

If the opposing managers cannot agree on minor officials, the referee of the meet shall choose them on the night of the meet. The diving judges must be selected in the same manner as the referee.

VIII. INDIVIDUAL CHAMPIONSHIPS.

The Intercollegiate Swimming Association shall each year hold an Indoor Individual Championship meet at a place as hereinafter provided. No points shall be awarded for places in this meet, nor shall

it have any bearing on the Intercollegiate* Championship. The Inter-collegiate Swimming Association shall award medals from the regulation die to winners as follows:

Gold medals for first places, silver medals for second places, bronze medals for third places, and gold medals to each member of the winning Freshman relay team.

The expenses of the meet shall be paid out of the gate receipts, and any surplus up to twenty dollars shall go into the treasury of the Association.

The programme and order of events for the Individual Championships shall be as follows:

1. Freshman Relay (4 men to swim at least 50 yards).
2. Fancy Diving.
3. 50 yards.
4. 220 yards.
5. Plunge for Distance.
6. 100 yards.

The colleges holding full membership shall be entitled to hold the Individual Championships at home in regular order, the order being: Columbia, Pennsylvania, Princeton, College of the City of New York, Yale, starting with Columbia in 1921.

The Freshman and three-year eligibility rules shall apply to all contestants at the Individual Championships.

YALE UNIVERSITY SWIMMING TEAM.
Intercollegiate Champions, 1920.

Eastern Intercollegiate Swimming, 1919-20

By L. DE B. HANDLEY,

Member Rules Committee, Intercollegiate Swimming Association.

The outstanding feature of the season of 1919-20 in the ranks of the Eastern Intercollegiate swimming season was the amazing work done by the New Haven watermen, individually and collectively.

Yale placed in the field the most remarkable swimming team ever developed by any university, at home or abroad, and it first swept through the championship league tournament in a series of brilliant, one-sided victories, then scored a triumph at the individual intercollegiate title meet, winning four of the five championships at stake, and garnering almost twice as many points as all the other colleges combined. Moreover, its various members placed to their credit several national collegiate records and one world's standard, in some instances bettering the figures for the same event two and three times.

The season's greatest achievement was chronicled in a dual meet between Yale and Harvard at New Haven on March 17, when R. F. Solley, J. M. Hincks, L. P. Thurston and E. Binney, Jr., swimming as a team for the Blue, won the 200-yard relay race in 1m. 39 4-5s., or 1 1-5 seconds under the former Intercollegiate and World's record, set by another quartette of Yale swimmers in March, 1919. It is worthy of note that officials of the Amateur Athletic Union had been rather skeptical of the records previously claimed for university swimmers, so they were asked to send their own timekeepers to this particular meet, and it was under the latter's special supervision that the new mark was set. Unfortunately, Thurston was not eligible to represent Yale in sports at the time, so the feat could not be accepted as a collegiate record. But it will be bracketed as an international standard, nevertheless.

About one month before, however, in an engagement with C.C.N.Y.—on February 13, to be precise—the same Yale four, with Thurston then in good standing, swam the 200-yard relay course in 1m. 40 4-5s., and this time will be listed in place of the old intercollegiate record of 1m. 41s.

New Haven sprinters bettered twice also the national collegiate mark of 2m. 30s. for the 800-foot relay racing, held by a Yale team since 1914. Solley, Milroy, Pratt and Hincks, competing against Pennsylvania in Philadelphia on February 28, brought down the figures to 2m. 29 1-5s.; then, with Binney in place of Milroy, the team further reduced the time to 2m. 28 4-5s. in a clash with C.C.N.Y. in New York on March 13.

Two of the Blue's fifty-yarders improved the record of 25s. for this distance, hung up by Edwin Binney, Jr., in February, 1919. Lorrin Thurston clipped one-fifth of a second from it in the Pennsylvania meet at New Haven on January 23, then Binney himself retrieved his

laurels by thrashing the half century in 24 2-5s. in his heat of the individual intercollegiate championship at New Haven on March 20.

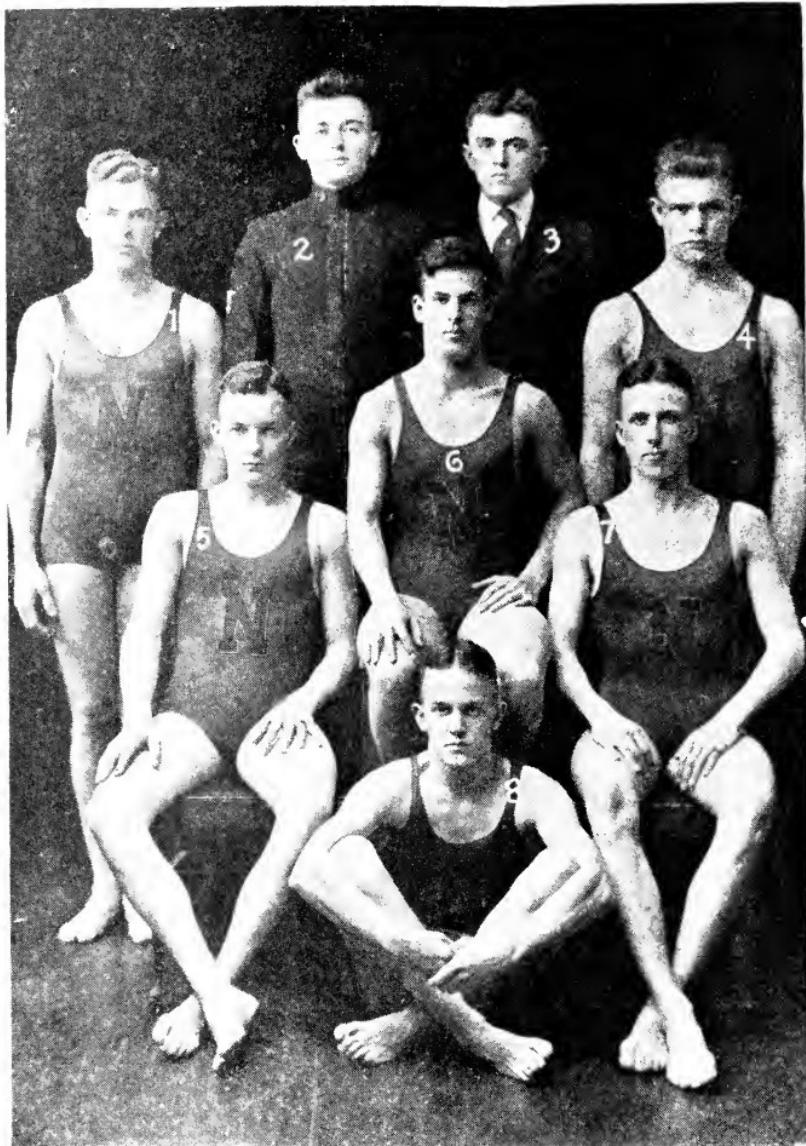

Richard Meagher, who was the Eli's reliance candidate for the plunge for distance, broke the time record for gliding a 75-foot pool three times, always at New Haven. He first lowered it to 47 4-5s. in the Columbia meet on January 16, then to 43 4-5s. against Pennsylvania on January 23, finally to 40s. flat in the engagement with Princeton on February 20. The mark last named, by the way, rates as a world's record also, even though the International Federation of Swimmers does not recognize time performances made in the plunge, listing only the best distance attained in the regulation time limit of one minute.

In the championship team tournament the competition for second place between Princeton and Pennsylvania was very close and interesting. Both defeated twice Columbia and C.C.N.Y., while in their own respective home-and-home meets Princeton was successful in the first and Pennsylvania in the second. Penn lost to Yale twice, but Princeton had only one engagement with the Blue team, which was lost. Had Princeton met Yale in a second encounter Penn and Princeton would have been tied for second place. Columbia and C.C.N.Y. had rather weak teams, but the fact was emphasized more than it might have been in other years because of the extraordinary strength of the Yale contingent and the excellent material on the Princeton and Pennsylvania squads also. Columbia was able to outpoint C.C.N.Y. rather conclusively in both their battles, however, so finished in fourth position, C.C.N.Y. trailing the procession.

The individual league championships at New Haven on March 20 brought out an exceptionally fine group of contestants, including representatives from Yale, Pennsylvania, Princeton, Amherst, Columbia, Wesleyan, Massachusetts Tech, Rutgers and C.C.N.Y. The competition was very keen, therefore, and nearly all the events were won by the narrowest kind of margins.

A somewhat unexpected feature was the good showing made by some of the associate members of the league. It was the rather general impression that these associate colleges would prove unable to cope with any of the five universities holding full membership—Yale, Princeton, Pennsylvania, Columbia and C.C.N.Y. Instead, Amherst succeeded in landing fourth place on total score, outpointing Columbia and C.C.N.Y., while Wesleyan tied Columbia for fifth. This is indicative of the steady improvement being made by the colleges considered among the minors in water sports until recently.

It is significant of the overwhelming superiority of the Yale watermen that they won the large number of 38 points in the individual championship meet, while their nearest rivals, the men of Pennsylvania and Princeton, scored only 8 and 6, respectively. As to the various victors: Binney captured the 50-yard dash for the Blue in 24 4-5s., but he took his qualifying heat in the record time of 24 2-5s., as previously mentioned; Hincks, the Yale captain, captured the century sprint

in 56 4-5s., only two-fifths of a second behind intercollegiate time; Shields of Pennsylvania won the furlong swim in 2m. 32 3-5s., or within 1 2-5s. of standard figures; Wood of Yale sprang the surprise of the meet by defeating in the plunge his record-holding team mate, Meagher, and securing the title with a glide of 75 feet in 52 1-5s.; another wearer of the Blue, Pollard, annexed the crown in fancy diving.

Both in keenness of competition and in actual results, the Eastern Intercollegiate season stands out as the most remarkable and successful in the history of the sport.

COLUMBIA UNIVERSITY WATER POLO TEAM.
Intercollegiate Champions, 1920.

Review of Intercollegiate Water Polo Season

BY DONALD GRANT HERRING.

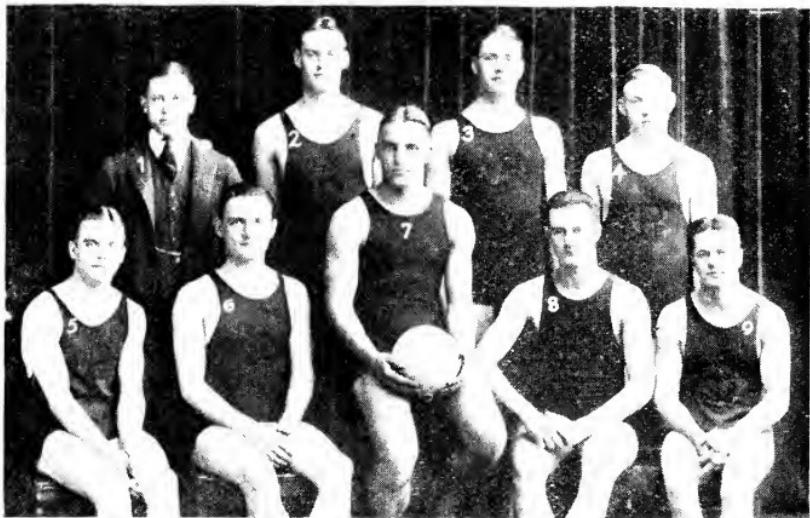

Columbia won the intercollegiate water polo title for 1920, breaking in on the long string of Princeton victories for the second time since 1912. In 1918 Yale was the winner. The Blue and White's only defeat was by Princeton in Columbia's home pool. The play of the two leading teams may be briefly characterized by saying that Columbia grasped her opportunities, while Princeton tossed hers away with a fine disregard of consequences.

Columbia won the championship, and deserved to win it, though Princeton scored the most points and had the least scored against her. In eight games Columbia scored 174 points and had 57 points scored against her, winning seven games and losing one. In seven games Princeton scored 211 points and had 41 scored against her, winning five games and losing two. Yale, which at the start of the season showed considerable promise, scored 115 points and had 68 points scored against her, winning four games and losing three, one of them to Pennsylvania. The teams representing Pennsylvania and the City College were weak, and the latter team failed to win a single game.

To sum up, Princeton showed greater potential strength than any other team in the league, both on offense and defense, but failed to grasp her opportunities when they were presented. Columbia, not quite so strong as Princeton either on offense or defense, but a fine fighting team, displayed in addition a spirit of opportunism which carried the team through to the championship. Yale's defensive play was good, though not quite equal to that of the two leaders. The Yale offense suffered from the fact that it was built around a star, Captain Vorys. Just as in foot ball, when the star is covered, this type of offense falls to pieces. It takes really good team play on offense to overcome really good defensive team play. Pennsylvania was a badly balanced team, with an offense that was excellent at times and a defense that was surprisingly weak. The City College team was not up to the standard of the other teams in either department of the game.

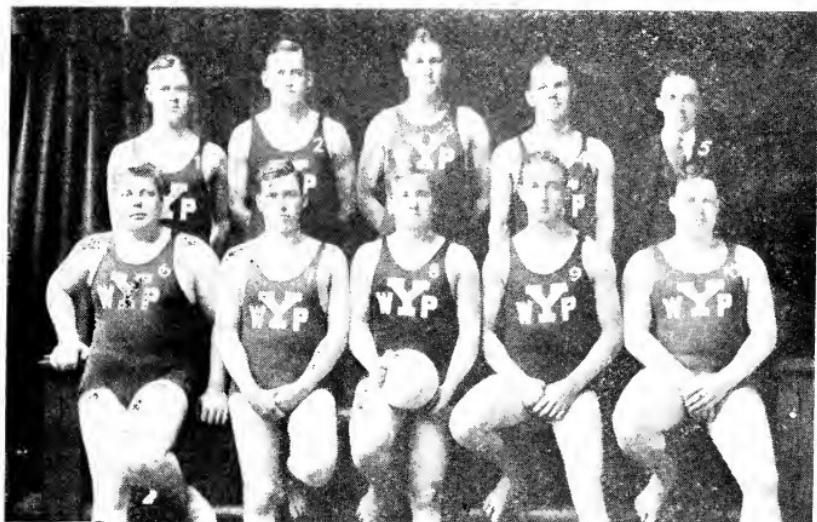

THE ALL-STAR LEAGUE TEAMS.

Three center forwards stood out from the rest, Botting of Princeton, Hyde of Columbia and Vorys of Yale. Of these Botting is the smallest physically, but what he lacked in weight he more than made up in speed, fighting qualities and knowledge of the finer points of the play of his position. Botting did the greater part of Princeton's scoring and is clearly entitled to the place. Captain Hyde of Columbia is placed at center forward on the second team, and Vorys at left forward on the second team. For companions to Botting on the first team I choose the two Columbia forwards. They were of very material assistance to Hyde in his center play and capable of scoring on their own account. Captain Buechner of Princeton is physically one of the most powerful men in the league. He has played the game at

Princeton for four years and in that time has absorbed a great deal from Frank Sullivan. I think he actually knows as much, if not more, about how his position should be played than any right forward in the league. His chief fault is failure to think and to act quickly in an emergency. His game is similar in some respects to that of Hyde of Columbia, and I think they would team well together. Between these two sets of forwards there is not a great deal to choose, though in a season's play I think the three chosen for the first team would average about one and a half touched goals more per game than would the second team trio.

The defensive trio chosen for the first team is, in my opinion, almost ideal. Crane of Princeton is a really fine goal keeper, yet I choose Galt of Yale, who also was chosen for the position in 1918. This past season he played back. As a pair Galt and French of Yale were most excellent backs and contributed largely to their team's excellent defensive record, which was just about on a par with Columbia's, though somewhat inferior to that of Princeton. Considering the backs by pairs, Phillips and Schrauff of Princeton are even more effective than the Yale pair, according to the records. However, there is another player who, in my opinion, is better than either one of them. Kindleberger of Columbia played goal, and was more than half of the Columbia defense, which was better than that of any other team in the league except Princeton. He would make an ideal back. The second team trio is the Princeton defensive trio intact. They had a wonderful record on defense while they played together. The only scoring done against this trio was one touched goal and two foul goals by Yale. It may seem strange that I have not mentioned any players from Pennsylvania or City College. Frankly, the defense of each of these teams was so weak that no defensive player, with the possible exception of Captain Tandy of Penn, can be considered. And the offensive strength of the league, with the exception of Captain Vorys of Yale, was concentrated in the Columbia and Princeton forward lines.

On the first team appear three members of the Columbia championship team, two Yale players and one Princeton representative. On the second team are Captain Hyde of Columbia, Captain Vorys of Yale, Captain Buechner of Princeton and three other Princetonians. On both teams taken together appear all of the fine Columbia forward line and the mainstay of the champion team's defense; the two high scorers of the Princeton sextette, and the three men who made Princeton's defense easily the best in the league; and the two fine Yale backs who were responsible for the sturdy defense of the Blue, together with Captain Vorys, practically the whole Yale offense in himself.

College Reviews

U. S. NAVAL ACADEMY, ANNAPOLIS, MD.

BY MIDSHIPMAN C. R. LAMDIN, CAPTAIN SWIMMING TEAM, 1920.

The Naval Academy opened its swimming season against Johns Hopkins, January 24, 1920. The men seemed in excellent condition and several races were won in very fast time. The Navy relay at this time was somewhat of a disappointment, though they won easily. Apparently the right combination had not been found, as later results proved. Emory, however, won the 40, trailed by Lamdin, in 19 3-5 seconds. The 100-yard dash was not without its thrills, Emory again being the winner. When the judges conferred, the time was found to be 57 2-5 seconds, establishing a new Academy record for the distance. Score, Navy 53, Johns Hopkins 6.

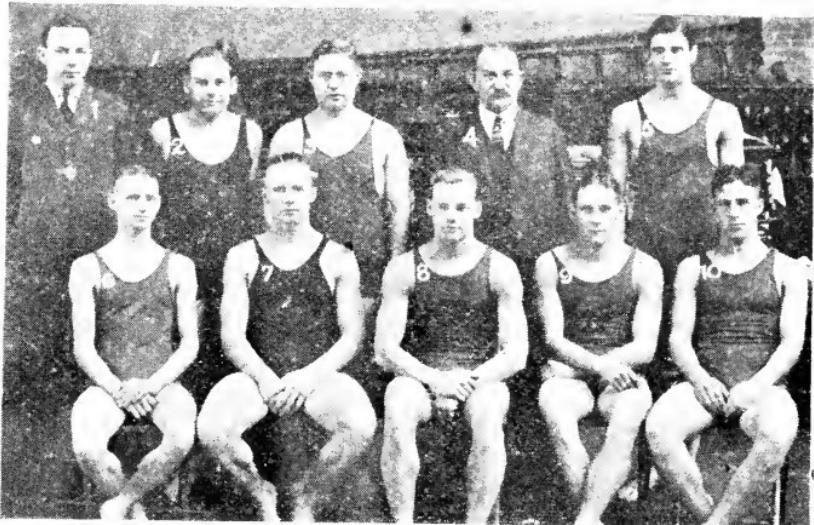

The meets followed in quick succession. Princeton was defeated next by a score of 52 to 10. The relay composed of Dickens, Emory, Gallagher and Winkjer established a new 160-yard record in 1 minute 19 2-5 seconds. Columbia fell next in a hard and closely contested meet. The relay swung the victory to the Navy by just a hair at the finish. Score, Columbia 15, Navy 29.

February 14 saw the University of Pittsburgh lowering its colors to the Navy. No records were broken and the Navy team appeared to be a little sluggish except the plungers, who seemed to be improving. Score, Navy 45, Pitt 14. C.C.N.Y. was the next victim to the tune of 46 to 7. The Navy's first attempt at water polo resulted in an 18 to 6 victory, with a fast and heavy though inexperienced team.

The next week the natatorium was crowded, M.I.T. being the attraction. This team beat the Navy the year previous and the meeting of the two teams caused a great deal of interest. The Navy relay started the fireworks, and Lamdin, Winkjer, Gallagher and Emory worked together like a well oiled machine. The time was 1 minute 19 1-5 seconds, establishing a new Intercollegiate and Academy record. The final score was Navy 36, M.I.T. 17.

Harvard and Pennsylvania were the next and last to meet Navy. The former proved weaker than expected despite the fact that Emory and Lamdin were ill with the flu, leaving two places hard to fill on the Academy team. Much to the surprise of everyone, the patched-up relay team, composed of Fish, Bolling, Winkjer and Gallagher, clipped one-fifth of a second off the record, doing the distance in 1.19 flat. The final score was Navy 36, Harvard 8.

The strong Penn polo team was held at bay by the heavier Navy players, while Graham and Higgins shot goals at will. The work of both teams was clever and fast. Navy took the aggressive at the start and soon had a good margin on the score, although Penn was the first to score. In the first few minutes of play the Navy was caught napping and Penn scored a touch goal. Penn was never dangerous after that and the final score was Navy 22, Pennsylvania 6.

BROWN UNIVERSITY, PROVIDENCE, R. I.

By F. W. BRACK, MANAGER 1921 TEAM.

With a record of seven victories and no defeats, the Brown University swimming team may be said to have engaged in the most successful season of its history. This was largely due to the fact that the team was well balanced in all departments and could be counted on to score in every event. Brown was particularly fortunate in having enough fast swimmers to win every relay in which the team raced, although various combinations were tried.

At the opening of the season Coach Huggins had seven 'varsity veterans to work with, but added soon Whitehouse and Familton, two first year men who later distinguished themselves in the dives and the hundred, respectively.

The first meet with C.C.N.Y. resulted in an easy win for the Brunonians, 41—12, but it did not make them over-confident concerning the second meet, when they were scheduled to test their mettle against M.I.T. This team had defeated Brown and practically everyone else it met the year before, and still possessed a fast team. An exciting meet was decided by the final relay event, which Brown won in a close finish. The remaining five meets were won by decisive scores.

No one man stood out as the shining star except possibly Captain Lawton. Until he was placed on the sick list in midseason, he took a majority of firsts in the dive, sharing only with his team mate, Greene. Lawton recovered in time to take part in the New England Intercollegiates, winning the championship from many college stars.

Lawton, Hoving and Greene are the only men lost by graduation, but their places bid fair to be well filled by Whitehouse and some reputed fast first year men. Nichols proved a reliable man in the plunge. Johnstone swam his way to first place in the 220 consistently, and Familton proved a tower of strength, often swimming the 100, the 50 and the relay.

**MASSACHUSETTS INSTITUTE OF TECHNOLOGY,
BOSTON, MASS.**

The M.I.T. swimming season started on November 11, 1919, when one hundred and thirty candidates reported for the team. As Tech has no pool of its own, the team practised at the Boston Y.M.C.A. on Mondays, Wednesdays and Fridays, from 4 to 6 p.m. The squad was coached by Alexander Sutherland. The only difficulty was the enforced irregularity of the coaching, due to Mr. Sutherland's other work.

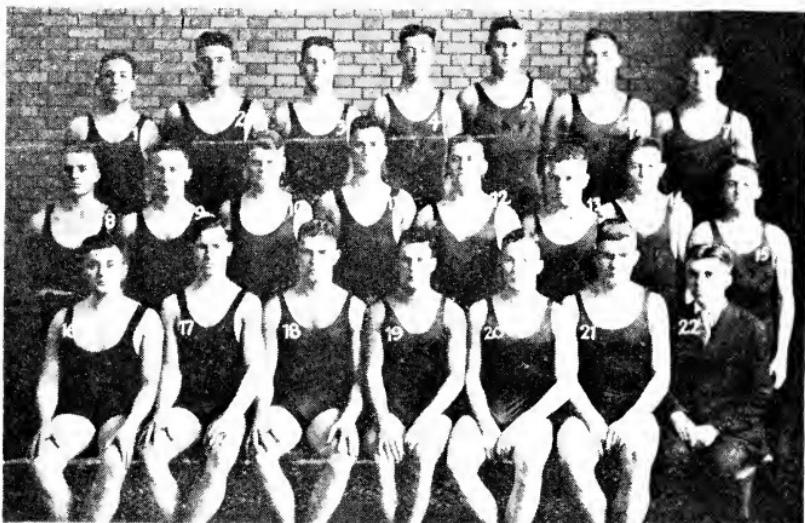

Because of the death of President Maclaurin, the first meet, with the University of Pennsylvania, was canceled, and thus the team did not get as good a start as was hoped. However, an impromptu meet was arranged with Springfield and another with Harvard, both of which were won by M.I.T.

On February 6 the team started for Amherst, but was unable to reach its destination because of the heavy snowstorm. The following

day Tech met Wesleyan in the latter's pool and defeated them, 30—20. On the 26th, in the meet with the Cadets at Annapolis, the Navy won.

Tech won first place in the New England Intercollegiates at Boston, scoring 16 1-2 points. Harvard was second with 11 points, Yale third with 10 1-2 points, Williams next with 8, then followed Amherst with 5 and Brown with 4 points.

The year was closed with a banquet, at which Biddel was chosen to succeed Green as captain for the next season.

HARVARD UNIVERSITY, CAMBRIDGE, MASS.

By J. B. FENNO, MANAGER SWIMMING TEAM.

In spite of the handicap of having to use the Boston Y.M.C.A. pool for practice, the 1920 swimming team was a better aggregation than any that has represented Harvard since 1916. The effort to develop a team resulted in bringing out material which compared favorably with previous swimming teams and which gives considerable promise for this season.

Harvard had a schedule of nine games, and although successful in only the meets with Springfield, Williams and Boston University, the remaining meets were closely contested, even though the scores show what might seem one-sided results. In the Intercollegiates at New Haven, Levy of Harvard placed fifth in the diving competition against a field of eighteen of the best college divers in the country.

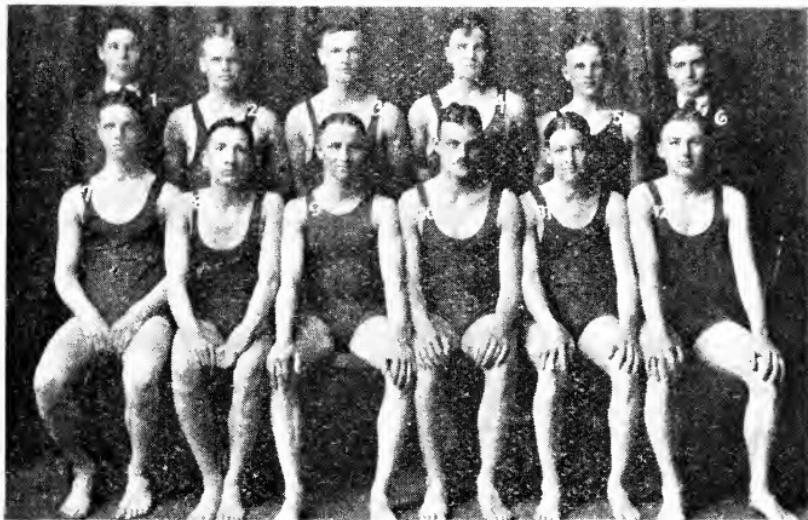

In the New England Intercollegiates held at Boston, Harvard secured third place, having won three second places and a third. Worcester, Brackett, Mott-Smith, Tilton, Levy and Knox were the most prominent and consistent performers throughout the season, and with Douglass, Stoddard, Thomas and Davies, showed great promise for future meets.

WESLEYAN UNIVERSITY, MIDDLETOWN, CONN.

By CLYDE W. QUICK, MANAGER WESLEYAN TEAM.

Handicapped by the lack of a professional coach, Captain Berrien and C. S. Spear, '19, developed a team of swimmers capable of meeting on even grounds any college team of Wesleyan's size. Too much credit cannot be given to Williams, captain-elect, for in only one meet did he fail to take first place in both the 50 and 100-yard dashes. The men were positioned: Berrien, Stevens, Peck and Williams in the relay; Stevens and Williams in the 50-yard dash; Berrien and Williams in the 100-yard dash; Peck and Sutherland in the 220-yard swim; Mueller and Morgan in the dives; Wall and Moore in the plunge.

The first home meet was with Massachusetts Institute of Technology, who emerged victors after a hard fight. Next came the meet with Yale's record-breaking aggregation, against whom Wesleyan scored five points. Although the outcome was very one-sided, nearly all the events were hotly contested. In this meet Wall advanced the Wesleyan plunging record to 68 feet.

WESLEYAN UNIVERSITY SWIMMING TEAM, 1920.

With Springfield, Wesleyan again met defeat, but this time it was due to the illness of Williams and the subsequent loss of the relay and of the dashes. Morgan, in excellent form, easily won the dives, and Wall the plunge. The next meet, that with Williams College, resulted more favorably, with a final score of 29 to 25 in Wesleyan's favor. Williams, in the prime of condition, easily won the dashes, and Morgan's form again won first place in the dives.

At Amherst, Wesleyan again met defeat, not at the hands of a stronger team, but in a strange pool. Brown, too, proved more than a match, though Williams again upheld his reputation by winning both the 50 and 100 easily.

In the Intercollegiates, held in the Yale tank, Wesleyan placed one man, Williams, who finished third in the hundred, and who later was mentioned for the All-America by Sullivan of Princeton.

Although Williams was pre-eminently the star in all the meets, due credit should go to the work of Captain Berrien, Peck, Stevens, Mueller, Morgan and Moore, as well as to Steele, Sutherland and others who stood back of the team and faithfully reported for practice.

AMHERST COLLEGE, AMHERST, MASS.

By C. W. LOOMIS, JR., MANAGER OF SWIMMING.

Amherst had a very successful schedule in swimming, although the season was shortened by impossible traveling conditions. In the four dual meets held the team was an easy victor, though there were many good contests. The greatest achievement was the overwhelming defeat given Williams, the time-honored rival of Amherst.

Captain Cowles and S. B. Damon did exceptionally good work, both winning their events in every meet. Damon also won the 50-yard New England Intercollegiate championship and placed second in this event at the Eastern Intercollegiates at New Haven. The team loses Captain Cowles by graduation and will be handicapped by this loss, but new material should develop another successful team.

RUTGERS COLLEGE, NEW BRUNSWICK, N. J.

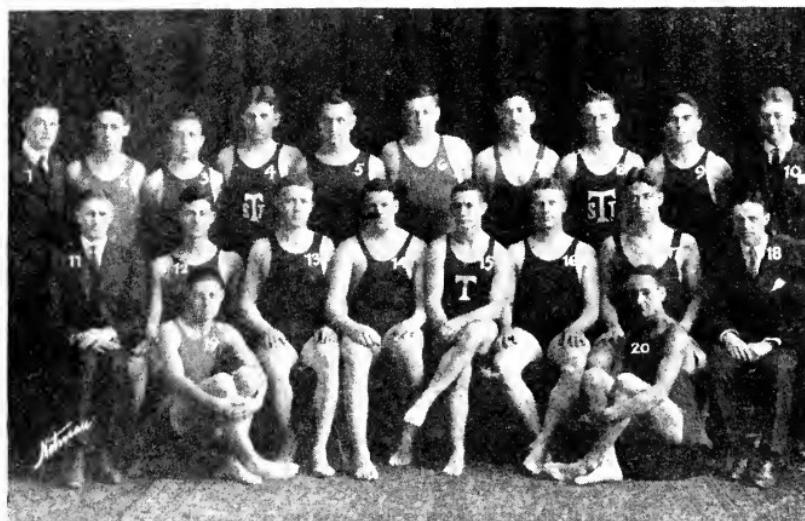

By NORMAN R. MEHRHOF, MANAGER OF SWIMMING.

The past season was one of the most successful since the Rutgers swimming team was formed. Every meet was won; and in addition, at the Middle States championships held at Swarthmore, Rutgers amassed a score of 41 points against a total of 34 for the balance of the teams entered. At the Intercollegiate Championships at New Haven, however, Rutgers' greatest point winners, Giebel and Ross, were unable to enter on account of the freshman eligibility ruling, and the Scarlet was unable to place. In the course of the season the relay team composed of Lukens, Ross, Gardner and Giebel established a new college record for 200 yards at 1m. 45 4-5s.

SPALDING

IN the water, as on terra firma, Spalding equipment satisfies. For nearly half a century Spalding Athletic Goods have been the standard by which Quality is judged.

"Just as good" is never just the same.
